## BEDROOMS

Our bedroom furniture is built to fit any space, we supply every element a bedroom needs to create a stylish and relaxing environment for your clients.

## HOME OFFICES

The way we work has changed over the past three years with more people than ever working from home. We can provide practical and functional furniture to suit your clients' specifications and study area requirements.

## LIVING AREAS

Intrinsic Works supplies made-to-measure units and furniture for all living spaces. We can provide practical yet stylish solutions to suit your client's requirements, from media areas, and lounges to boot rooms and libraries.

# DOORS

We supply a variety of door solutions to suit any design, whether it's contemporary, classic, or traditional. Our made-to-measure doors are manufactured using high quality materials and products.

## STATE-OF-THE-ART EQUIPMENT

We use HOMAG machinery, a leading provider of integrated production solutions for the furniture and woodworking industry. This allows precise and consistent cutting and finishing of panels and shapes.

## BESPOKE FURNITURE FOR TRADERS

Intrinsic Works manufactures made-to-measure furniture for bedrooms, home offices, and living spaces. Our purpose-built factory based in the midlands is equipped with the latest HOMAG machinery, all our materials and components are sourced from industry-leading suppliers.

People are at the heart of Intrinsic Works. Whether it is with clients or colleagues, we take pride in our strong relationships. We have a highly skilled and knowledgeable team who are able to offer advice on our products and the best solution for your fitted furniture needs.

### 01. Your concept

It begins with a drawing. All we need is a clear drawing, precise measurements, colour and component choices.

### 02. Visualisation

We use state-of-the-art CAD software, this helps us to ensure accuracy, visualise and simulate your concept before manufacture.

### 03. CAD

The CAD design is optimised for accurate CNC cutting and vertical drilling of the décor boards. The cut panels are edged using PUR glue and horizontally drilled where needed.

### 04. Assembly

Where our furniture is assembled, it is expertly done by hand and any components used checked and tested.
