Collum collection

designed by Morten Svendsen

The rectangular Collum table with its nicely curved column bases is an iconic design second to none. The fixed tabletop with solid edges has a smart integrated storage facility for extension leaves at each end and can be ordered with one or two extension leaves matching the tabletop.

On the round Collum table the curved columns have been turned into a centre pedestal base that is a beauty in itself. When the table gets extended the pedestal base splits into two and gives the table another striking look.

The Collum sideboards, highboards and display cabinets represent a comprehensive range of cabinets in a soft organic design. All cabinets have a drinks/storage compartment on both sides with curved wooden doors fitted with a magnetic catch. The plinth of the cabinets is with adjustable feet. All doors and drawers are with soft-closing and the glass doors with push-release. The glass cabinets can be ordered with LED lights with sensor and dimmer.

All cabinets are also beautifully veneered at the back, which means they can be free standing.

Enjoy.
