Dining room functionality

Original Danish design

Our furniture is based on ideas of simplicity, functionality and great details. One of the great details is that we only use sustainable wood. Another is our commitment to the original trade.

Throughout the years, Skovby has educated more than 250 men and women within the field of furniture production. With an inclusive staff policy, a flexible senior policy and a constant flow of around 10 apprentices, we carry on our core values while also investing in the future.

We are proud to say that we work hard and passionately each day to uphold the traditions of great Danish design. We still produce our furniture locally, in Denmark – strengthening and embracing the know-how and craftsmanship necessary for creating the ultimate Danish design pieces for our customers to enjoy for many years to come.

For more than 90 years, this has been our mission.

Third generation

Skovby's story began in 1933 in a small rural village in Denmark. Back then a talented young cabinetmaker with big dreams started a small-scale furniture production in his mother's home in Skovby. His name was Thorvald Rasmussen – and this was the beginning of what would eventually become Skovby Møbelfabrik A/S.

For Thorvald – and later his son Villy – there were many obstacles, but also many triumphs along the way, and slowly but surely the company expanded and grew. Today Skovby is owned by third generation and grandsons Preben and Jørgen Rasmussen and the furniture is still designed and produced locally – in the heart of Denmark – in Skovby, where it all began.

Introducing the dynamic #546 Dual Cabinet

a sleek design that seamlessly blends with modern functionality.

At first glance, the cabinet presents a sleek and symmetrical facade, featuring a central split rolling front. A dual-action door design adds an element of intrigue to the exterior of the cabinet, giving it a timeless and sophisticated look.

The real magic happens when you interact with the cabinet. A gentle slide unveils a smooth 180-degree rotation that brings the interior to life, exposing three versatile shelves. Perfect for design enthusiasts or those seeking space optimization, this cabinet is a conversation starter, combining luxury with practicality.

Tables #140, #141, #142, #143

The whole concept behind this table design revolves around the distinctive gable detail adorning the ends of the tabletops - an element, which challenges the natural grain of the wood, imparting a sense of honesty to both the construction and the material itself. Making it possible to choose between a fixed and extendable top, this design boasts countless possibilities.

Expand your circle

Make room for all your loved ones with the beautiful and iconic #33 dining table.

The table is known for its unique patented extension system. A turntable under the tabletop splits the tabletop in three in one synchronous movement revealing three extension leaves stored in the base. When light pressure is applied, the extension leaves unfold and expand the circle of the tabletop to a seating capacity of 9 people.

The Skovby #33 dining table is equipped with a unique extension system. By turning the turntable under the tabletop the three leaves move synchronously to a position that makes room for the extension leaves in the base. When light pressure is applied the extension leaves unfold by means of a spring placed under the triangle in the middle of the table.

The #33 dining table can be extended from six to nine seatings.

PER HÅNSBÆK
Architect & Designer

With a passion for equal parts materials, design and functionality architect Per Hånsbæk has developed a long line of Skovby dining room furniture for more than 30 years.

Each piece of furniture has the characteristic Hånsbæk signature – a distinct balance between design and functionality, which he believes to be of equal importance.

Table #120 is ideal for modern, compact living with its small and perfectly round shape.

The wooden legs appear both edgy and soft with interesting lines and a smooth rounded finish. The legs are slightly angled for a vivid expression and contemporary look.

The perfect centerpiece

The #128 dining table is our largest fixed top table with a diameter of 150 cm and can seat up to 9 people.

The grain of veneer on the four parts of the tabletop points towards the center of the table, which gives the tabletop an exciting expression.

The four strong legs are shaped with weak arches and fitted with black steel braces to stabilize and to create a both distinctive and resilient look.

From leftover wood to beautiful design

SUSTAINABLE & STACKABLE STOOL

The idea and design of stool #840 sprang from pieces of leftover wood. Pieces cut from round and elliptical shaped tables are brought together to create a stackable and sustainable stool made entirely from leftover pieces from our production.

Three joined pieces of solid wood give the seat a dynamic and interesting pattern. Combined with the edgy legs the result is a unique, sculptural look.

Use the stool as extra seating, a small side table, or simply a beautiful display piece in your home.

– in one easy sliding movement

Coffee table #244-267 is part of the new versatile coffee table series from Skovby. Mix & Match the items and choose the combination to match your home perfectly.

#244 is a rectangular table model with slightly rounded corners. The shape and size are a great match to a larger couch, without taking up too much space in your room. Combined with #267 you get an extraordinary and flexible coffee table.

Press the small switch under the coffee tabletop or use the remote control and the battery-powered electric system elevates the coffee table to just the height you want, - in one easy sliding movement.

Responsible manufacturing & safety

Skovby want to ensure that our products are socially responsible, both in the way that they are produced alongside contributing to safe environments.

All Skovby products are produced and assembled in Denmark. We want to make sure that our products contribute towards healthier indoor climates.

By keeping all production under one roof, we achieve strong involvement and broad representation of interdisciplinary competencies, which are all within short-range from initial idea to finished product. Our products are developed through close interaction between cabinetmakers, technicians and the company architect.

Together they pursue to reach new heights with multi-functional and lasting designs.

We continue to aim for functional sustainable designs with a durability that will allow Skovby products to be used for many years to come.

Storage furniture is made of lacquered, soap-finished or oil-finished veneer.
Opbevaringsmøbler fremstilles i lakeret, sæbebehandlet eller oliebehandlet finer.

Solid versions of tables will come with veneered extension leaves in solid look as standard.
Massive udgaver af borde vil blive leveret med finerede tillægsplader i massivt look som standard.

Chairs are surface-treated, so oil treatment is not necessary.
Stole er overfladebehandlet, så oliebehandling kan udelades.
